Ontario Crops Research Centre – Bradford (Muck Station) IPM Report 2024

This is the Muck Crops IPM Update for May 8, 2024

Highlights

- The 2024 growing season is here!
- A number of onion fields have been seeded, transplanting is ongoing.
- The scouts have started their training.
- If you are interested in having your field scouted contact Tyler Blauel at the Muck Station at 905-775-3783
- Carrot weevil traps have been set up in most fields, no activity yet.

Onion Update

Many fields were being seeded late last week and early this week while conditions were good. Transplanting continues in some fields. Regular scouting will begin in just over a week.

Carrot Update

A couple early carrot fields have been seeded. Carrot weevil traps have been set up in most fields, but there is no activity yet. Carrot weevil pressure is usually higher in early seeded carrots than later seeded carrots.
