

IMPROVE LIFE.

Ontario Crops Research Centre – Bradford (Muck Station) IPM Report 2023

This is the Muck Crops IPM Update for May 5, 2023

Highlights

- The 2023 season is underway!
- Most fields are just a little bit too wet for seeding.
- Some onion fields have been transplanted and seeded.
- The scouts have started training for the 2023 season.
- Carrot weevil traps will be set up in fields next week.

Onion Update

A few onion fields have been seeded and transplanted. Most fields have been a bit too wet this week, but seeding is expected to pick up next week. Regular scouting will begin in a couple weeks once onions have gone in.

Carrot Update

Very few carrots have been seeded. Carrot weevil traps will be going out in some fields next week. Carrot weevil pressure is usually higher in early seeded carrots than later seeded carrots.

Daily Weather

Date (May)	Max temperature (°C)	Min temperature (°C)	Rain (mm)
1	9.7	4.4	1.2
2	7.7	3.1	5.8
3	9.9	3.1	8.0
4	13.2	3.9	0.0

Soil Temperature (°C): 5cm: 9.6
